Business Intelligence Reports

Optimum Business Intelligence Reports (Optimum BI) is an add on tool for Optimum ERP and all of its modules which connects with the Optimum database directly and then users can design their own reports in MS Excel in the way they like. Users can extract reports based on their authorization provided in Optimum. Users can save the reports for future use and just refresh the data or change the report parameters to generate report again at any time.

Optimum provides powerful Security and Workflow. Specific system and operational roles can be defined at user or user group levels. A powerful document workflow ensures the smooth flow of documents within the organization. Any number of approval levels can be defined according to the nature of the document.

Core Components:

1. Extracting immediate reports.
2. Extraction of periodic reports.
3. Create intelligent reports within the Optimum system.
