Of our processes, services, products, people and Quality Management System through constant review of enhancement opportunities.
We will always strive to create a prefect product in order to achieve excellence based on international standards.

CHIEF EXECUTIVE OFFICER

OUR VISION

Amthal Group becomes one of the preferred choices for providing ICT solutions, business management mechanisms and related services in the Middle East and beyond, building long-lasting and trusted business relationships with our clients and partners.

OUR MISSION

Through ICT, Business Process Re-Engineering and Marketing we enable our clients to achieve their goals through our solutions and services, so they can enhance efficiency in order to increase their productivity and profitability on the inside and expand visibility in order to improve their positioning and product awareness on the outside to stay ahead of their competitors and overcome the challenges of today's turbulent market conditions.

HANI AWACHI CEO

Founder and CEO of the **Amthal Group W.L.L.** since 2000, and the mastermind behind the concept and development of the OPTIMUM E-ERP system, displaying brilliant business acumen and far-sightedness. Specialist in business process re-engineering, office automation processes, and MIS restructuring.

Visionary leader and team player, with strong foundations in IT, Business Management, Accounting and HR Development, who possesses a strong flair for inspiring and motivating teammates to think big and attain the utmost.

Possesses extensive experience in senior positions in the private and government sector such as ministries, banks and major financial institutions.

"We feel immensely proud and pleased about the growth of Al-Amthal to the present stature. Our products have been widely accepted by the business world in the region and we have been able to position our brand successfully in the market; we believe we have got a bigger role to play in the coming years.

This achievement is the result of our clear-focused hard work and well-coordinated teamwork. We have very ambitious and bold plans about our future.

Our goals are high, but we - the Al-Amthal team, are determined to achieve them. The opening of regional offices in other GCC countries was a quantum leap for us; and in the near future we plan further expansions with more offices across the Middle East and beyond."

DIVISION GENERAL MANAGER

OUR TEAM

BEATE SCHOEK Division General Manager

Expert in languages, experienced in commercial and educational policy writing. Vast knowledge in ISO certifications and ISO implementation. Versatile experience in public relations and business writing and communications. In depth knowledge in ERP documentations.

"Coordinating the Quality Management System of Al-Amthal is the most vital part of my work, which includes developing policies and procedures for a fully automated office environment. It is my endeavour to ensure that our employees from the different divisions work according to AlAmthal's quality policy."

OUR TEAM

Amthal Group's Consultancy and Software Division has engaged the services of the best IT and Business Management Professionals to build their team.

Our team Is not only proficient in technology but also has in depth knowledge of business to provide the best consultancy services to our valuable customers.

wolke

Total Solution System for Your Business

WOLKE

Wolke division is one of the leading providers of integrated business software solutions to the 'small to medium scale (SME)' business market in the Middle East and beyond, offering a wide range of software products and services that address the whole spectrum of various SME businesses.

Wolke division's major project approach is Business Process Re-Engineering (BPR) whereby we engage our consultants and use our products.

WHAT WE STRIVE FOR

The ultimate objective of the **Wolke** division is to identify the business requirements of our "SME" customers through the mechanism of business process re-engineering "BPR" and provide them with electronic business solutions. This will enable them to make timely and informed decisions, increase efficiency and productivity and to maintain an edge over their competitors in ever changing market conditions.

OUR APPROACH & METHODOLOGY

Through a team of innovative and creative experts, **Wolke** aims at offering their customers the best possible consultation services. Many years of professional expertise is embedded into our **Wolke** Total Solution Software that is designed and adjustable to suit all kinds of businesses in order to provide our customers with the most appropriate solution for their individual business needs.

Wolke's major project approach is business process reengineering (BPR), whereby we employ our own product as enabler in order to re-engineer and computerize our customers' processes. These Microsoft certified products are comprehensive E-ERP (Enterprise Resource Planning) systems, modular in nature but mutually communicative.

OUR SOLUTIONS

Wolke Business Suite offers an extensive range of E-ERP systems that cater for a wide range of industries, such as:

- Trading Management
- Real Estate
- Money Exchange
- Education

- Services & Contracting
