الحل الأمثل والنظام الشامل لإدارة الأعمال  
The Total solution system for your business

A photograph of three business professionals in a modern office setting. A man in a suit and tie is on the left, smiling and looking towards the center. Two women in business attire are in the center and right, both smiling and looking at a large, dark-colored folder held by the woman in the center. The background features a large window with a grid pattern, suggesting a contemporary office environment.

Your Goals. Our Solutions.

Inventory Management

**Optimum Inventory Module** is an integrated system that includes the complete documentary cycle of inventory and warehouse management starting from the receipt of goods, updating stock by store/category, updating stock by additions or deductions or store to store transfer. It also keeps the record of expiry date, re-order level and re-order quantity. System keeps the record of inventory by category, location and closing date.

**Optimum** provides powerful Security and Workflow. Specific system and operational roles can be defined at user or user group levels. A powerful document workflow ensures the smooth flow of documents within the organization. Any number of approval levels can be defined according to the nature of the document.
